Pre-check-in Information

When you arrive, I may not be here but I will ensure that your stay is smooth by being available on WhatsApp (+447910394459) and my partner will be available to help in London.

Check in

Pick up keys from safe location below for self-check-in (unless we've pre-agreed to meet at the property).

I will send you a code on the day via AirBnB messaging (or WhatsApp if you provide a number) that you need to give to the shop-keeper before he releases the keys. For security, he doesn't know the address.
